

COVID SYMPTOMS OR EXPOSURE

the next steps

COVID Symptoms:

Fever, chills, cough, shortness of breath, fatigue, muscle or body aches, headache, new loss of taste or smell, congestion or runny nose, nausea or vomiting, diarrhea or sore throat.

Close Contact:

Employee was within 6ft for a cumulative 15 minutes or longer with a known positive (up to two days prior to their symptom onset or testing date for asymptomatic cases) OR employee shares residency with the positive individual. **If you share residency - CALL HR for further instruction as your leave may differ.**

If an employee tests positive for COVID-19, they must **assist HR with contact tracing**. HR will notify all employees working in their area that there has been a positive case. Employees who were considered to be in close contact with the positive case will be contacted directly by HR for further action. The Fond du Lac County Health Department has limited resources, so please work with HR to complete the contact tracing and return to work process. HR will also assist with the required FMLA tracking and payroll processes regarding the FFCRA and Emergency Paid Sick Leave. Thank you!
